

Georgia

CHP Installations:

From the [EEA website](#) Georgia has a large list of CHP installations with a capacity of 1,206 MW at 34 sites. The site shows a list of all the sites with the city, organization name, application, fuel and capacity. Other installations can be found using this [searchable database](#). If you know of other CHP installations please submit them using this [user-friendly input form](#).

CHP Market Potential

Market potential for future CHP in Georgia is estimated at 6,445 MW by Energy and Environmental Analysis. A CHP market review for the southeast can be found [here](#).

Energy Pricing

Energy pricing, for both fuel and electricity, can have significant impacts on the financial viability of CHP. Further discussions of energy pricing in Georgia is available below and at the [EIA website](#). Check with you local [energy providers](#) for specific pricing in your area.

CHP Partners

Some CHP partners are listed on the EPA's CHP site. The partners listed include:

- Aircogen Limited
- Vericor Power Systems as an equipment manufacturer
- Association of Energy Engineers
- RDA Engineering as a consulting/engineering organization

This list can be found at this [link](#).

Other companies known to have CHP system capabilities can be found in this [contact database](#).

Financial Incentives for CHP Systems

Financial incentives for CHP systems can be found in two places. The Database of State Incentives for Renewable Energy (DSIRE) is a comprehensive source of information on state, local, utility, and selected federal incentives such as low interest loans, rebates, tax credits, green power programs, and net metering agreements that promote renewable energy. The website for the Georgia incentives can be found at [DSIRE Website](#) .

The EPA also has a [list](#) of funding opportunities for CHP applications.

Utility Contacts

No specific study has been identified to ascertain the participation of utilities within Georgia that are engaged in CHP system applications. Some utilities known to be engaged in CHP applications are identified in our [Contact database](#). Some direct links to utilities in Georgia are shown below.
